

DESIGN PORTFOLIO

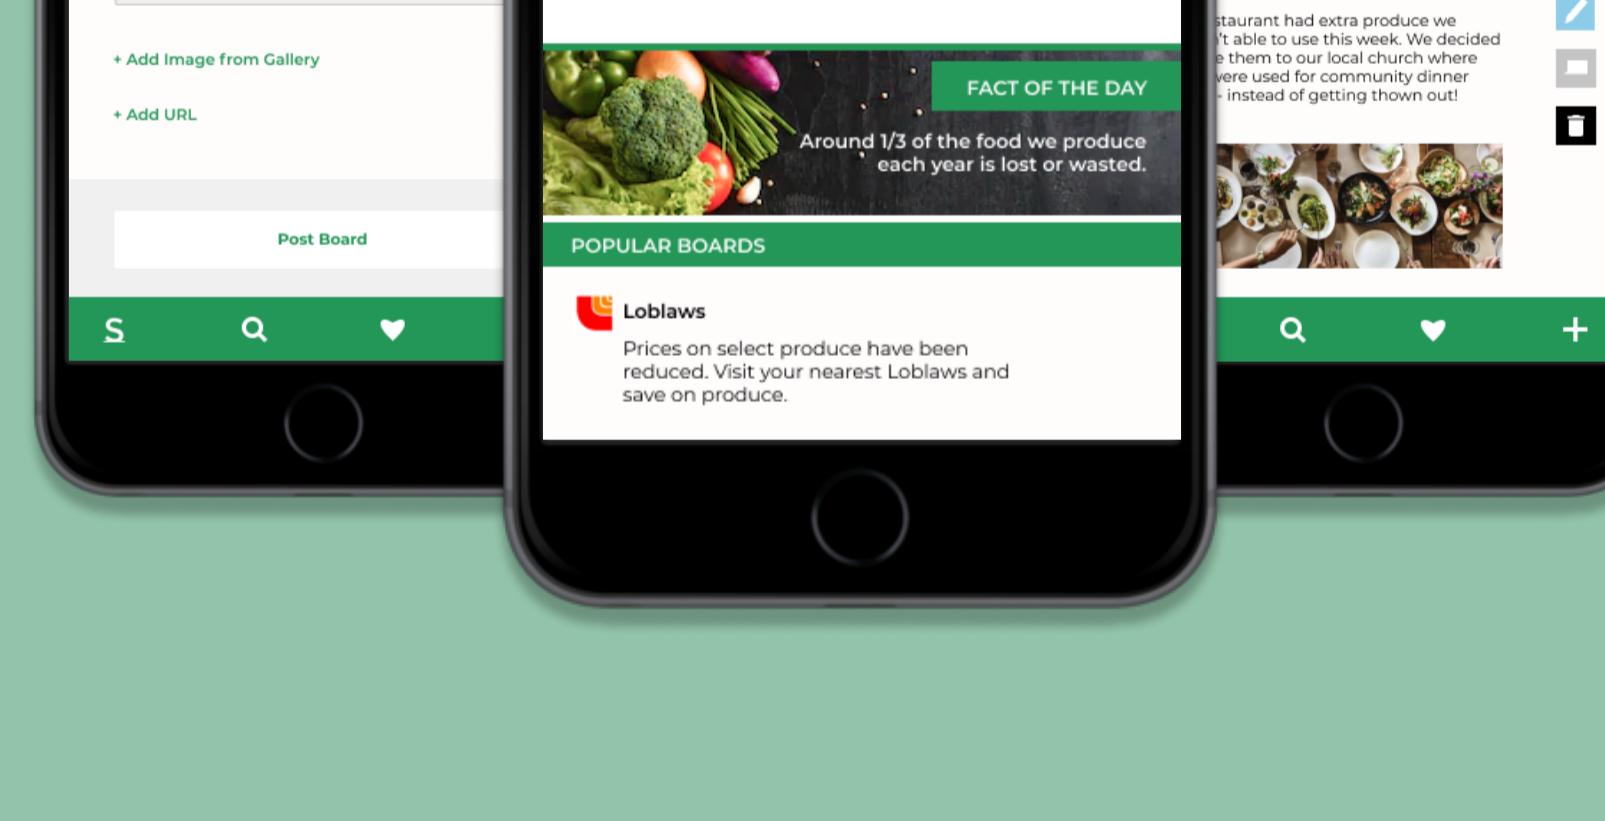

UX/

Human Library Employee Training / Interactive wireframes created from specific requirements provided by client, a Canadian college. This module had to reflect current designs on YouTube and Netflix for easy navigation for users (ie: use of carousels, genre tabs, etc).

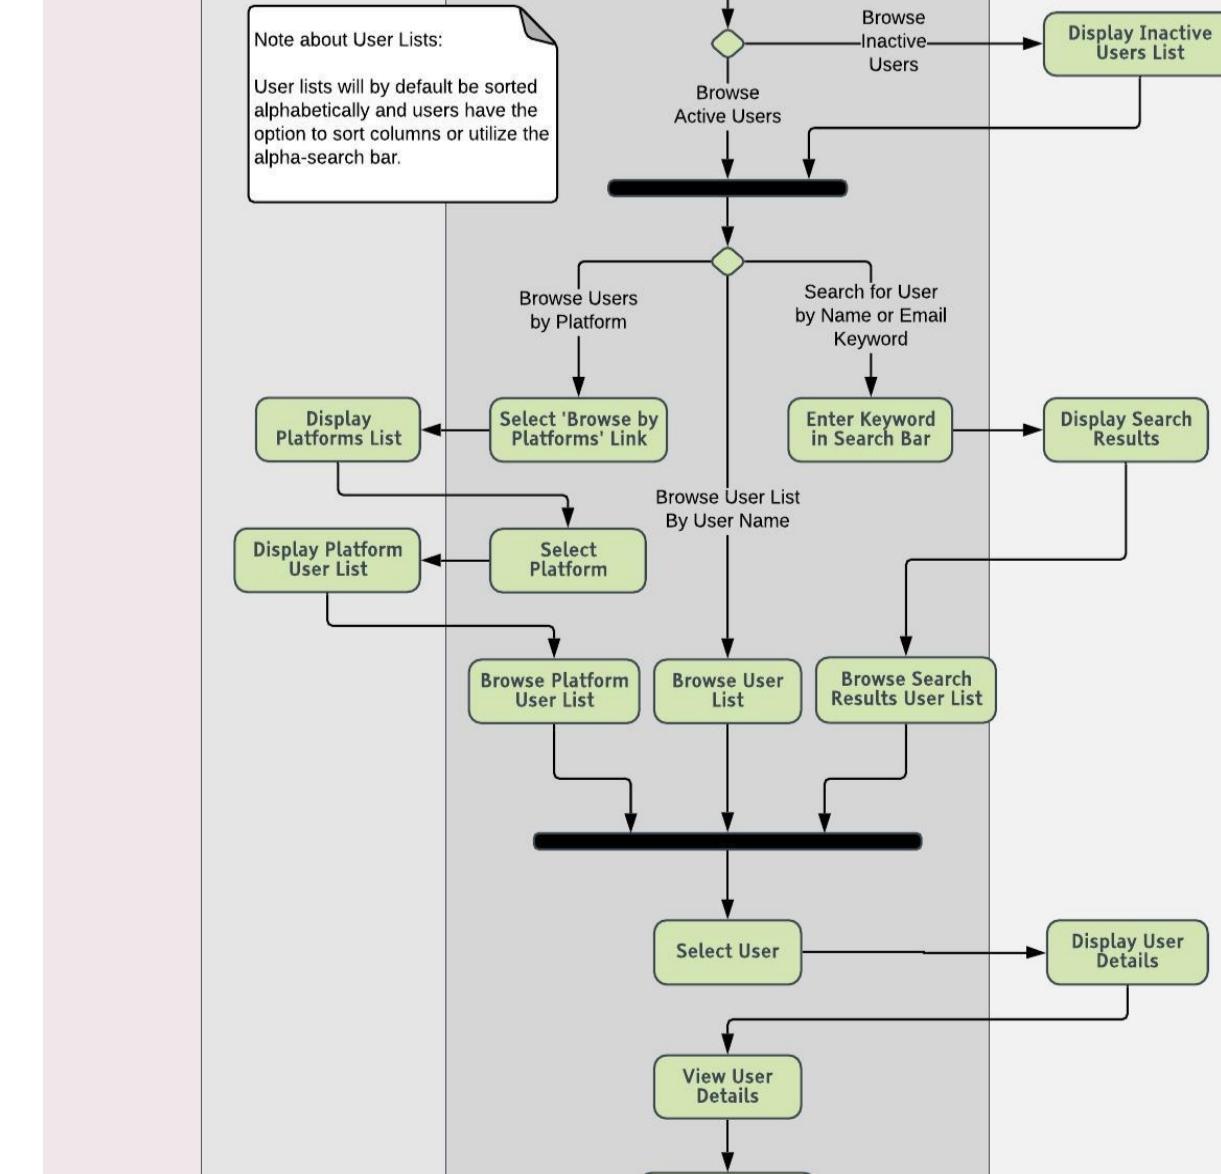

Adobe XD / March 2019

UI/

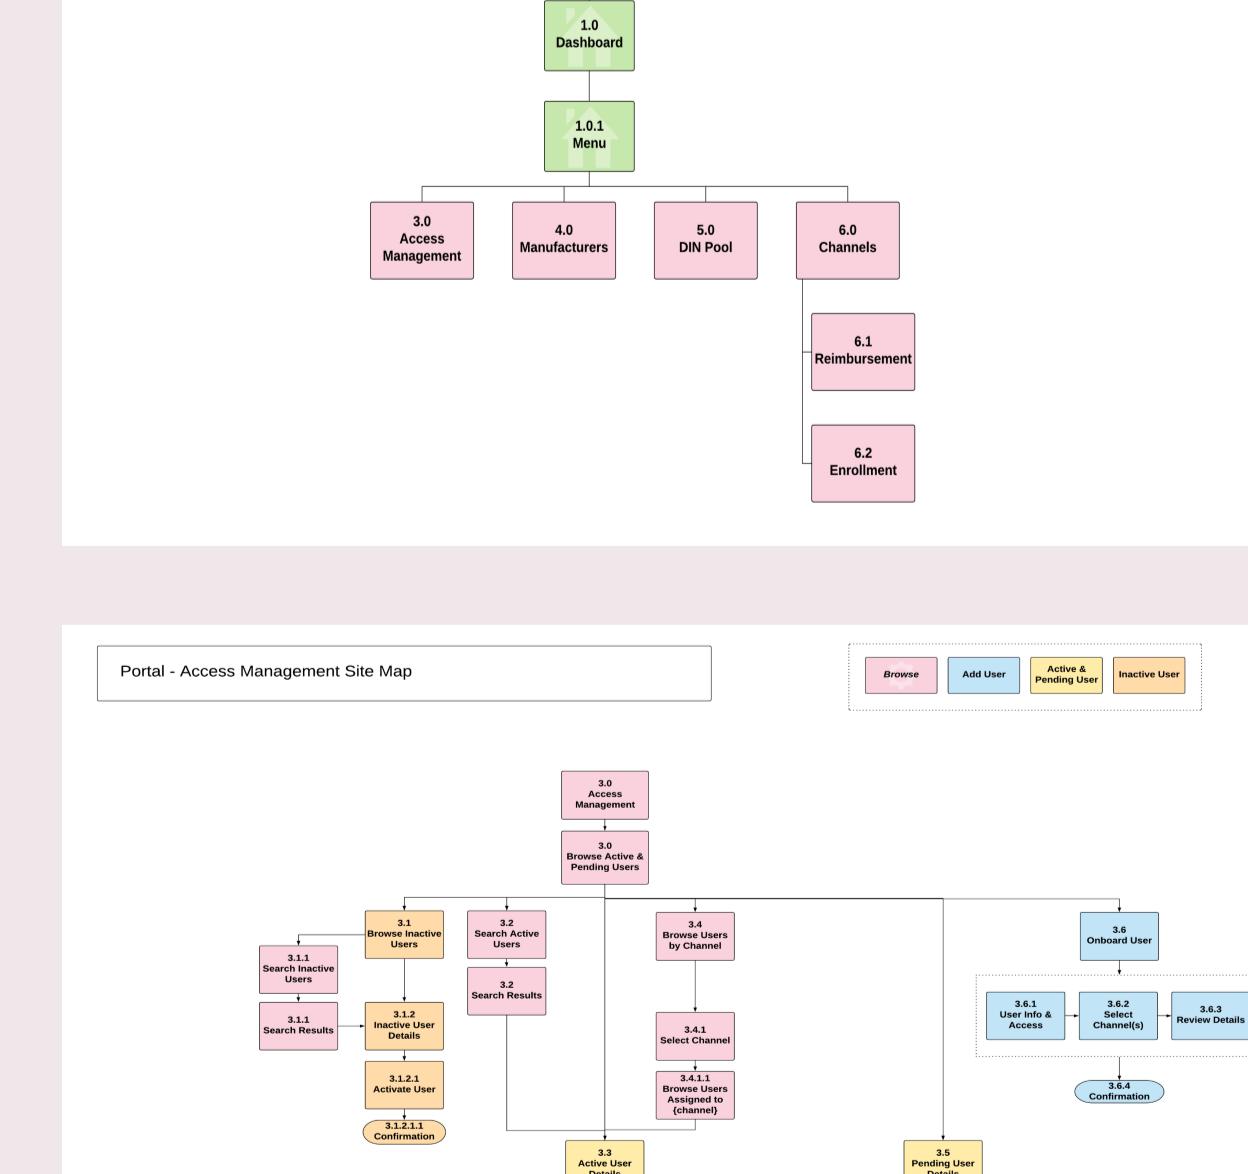

Sustain-Able / Mockup of an independent side project with the intention of improving food waste using social media. Created from user research and personas, this app allows users to share food sustainability ideas while gaining discounts and promo codes when reducing food waste.

Figma / May 2019

HTA Diagram

Flowcharts

UX/

Pharmaceutical Portal Module / Hieristic Task Analysis (HTA) diagrams and flowcharts created to record the functionality of a website for a pharmaceutical company. The HTA diagrams and flowcharts helped display inefficiencies in design and included back end information for developers.

LucidChart / February 2019
